

CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: <https://parsa-rajabi.github.io/CMPT-276/#/ai-policy>.

1. First Name (as appears on Canvas) *

Alex

2. Last Name (as appears on Canvas) *

Lee

3. Student ID *

301599249

4. Which assignment/lab/project submission is this AI use disclosure for? *

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	☐	☒	☐	☐	☐

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I chose somewhat acceptable because the timeframe to complete was quite small given our scope and the experience of everyone in the group. Using AI, will help us understand the different technologies much faster and enable us to focus on the implementation rather than something like testing. Additionally, it is often better/faster at explaining concepts and finding information than traditional searching.

7. Did you use AI tools for this submission? *

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	☐	☒	☐	☐

9. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	☒	☐	☐	☐	☐

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

Given that I had to learn a lot of new technologies for this final project, AI was extremely useful for teaching me documentation of the different APIs we used. It made it much easier to get information except for very specific issues where in that case I'd try to find a forum or the documentation itself. It was also helpful in my learning by explaining snippets of code that I may not fully understand.

11. List the name all the AI tools that you used for this submission *

- ChatGPT
- Google Gemini

12. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☐ Somewhat confident
- ☒ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

I ensured the answers were correct by making sure I understand what exactly it outputted so that I can research it myself. Other than that, I also tried to ask mainly syntax questions or small snippets of code such as simply asking what a method does to ensure I can check it myself in the official documentations.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.
(optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Enter your answer

15. For each of the following items, how would you rate the relative contribution made by you versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	☐	☒	☐	☐	☐	☐
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	☐	☒	☐	☐	☐	☐
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	☐	☒	☐	☐	☐	☐
Text analysis: To make sense of text and generate insight as to what it means	☐	☒	☐	☐	☐	☐

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Summary: To quickly understand large amount of text by extracting important information	☐	☒	☐	☐	☐	☐
Q&A + Research: To get answers from questions and find relevant information	☐	☐	☒	☐	☐	☐
Illustration/Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	☒	☐	☐	☐	☐	☐
Coding - Write: To generate code by AI for software implementation	☐	☒	☐	☐	☐	☐
Coding - Test: To generate <u>code tests</u> by AI for software implementation	☐	☐	☐	☒	☐	☐
Coding - debug: To identify issues with existing code for software implementation	☐	☐	☒	☐	☐	☐
Coding - explanation: To understand what a code snippet does for software implementation	☐	☐	☒	☐	☐	☐

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Other: to help any other aspects of the submission not listed above	☐	☐	☐	☐	☐	☒

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

In general, we didn't need to write much for comments, and only used AI to handle tedious content like city descriptions or search data to save time. For Q/A and research, I use ChatGPT like a secondary Google search to find information such as syntax or links to relevant documentation. When coding, I try to write everything myself, using ChatGPT mainly to debug when I'm stuck on an issue for too long. Since we work in groups, I also sometimes ask AI to explain snippets of code written by other team members. Lastly, because our group had little to no experience with testing—especially for APIs—we relied heavily on AI for testing to save time for feature development.

17. Please provide use this space to provide any other information that you'd like to disclose (optional)
