

CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: <https://parsa-rajabi.github.io/CMPT-276/#/ai-policy>

1. First Name (as appears on Canvas) * 

Ryan

2. Last Name (as appears on Canvas) * 

Fu

3. Student ID * 

301578983

4. Which assignment/lab/project submission is this AI use disclosure for? * 

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? * 

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	☐	☒	☐	☐	☐

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) * 

For this submission, I chose academic integrity as "Somewhat Acceptable", as AI could be extremely useful and needed, especially when there are errors in the code. Furthermore, AI could help improve a student's code, assuming some code has already been written by students.

7. Did you use AI tools for this submission? * 

- ☒ Yes
- ☐ No

8. For this submission, how would you rate the relative contribution made by your versus AI? * 

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	☒	☐	☐	☐

9. How did using AI content generators impact **your learning** for this submission? * 

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	☒	☐	☐	☐	☐

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

I chose "Greatly benefited my learning," even though the relative contribution made was "Mostly by myself, some contribution by AI". This was because all of our group members had no prior experience or knowledge of using Vitest, which did not change even after spending some time trying to familiarize ourselves with the knowledge. Thus, I decided to use AI to generate code for the Vitest on our application while I further learned from the code that it generates, while informing my group members beforehand.

11. List the name all the AI tools that you used for this submission *

ChatGPT
Co-pilot

12. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

While I had no experience or knowledge in Vitest, I made sure that the generated vitest was correct by making sure it followed the vitest syntax, by making sure it uses describe, it, test and expect blocks with the correct catchers such as .toBe(), .toEqual(), .toContain() and .toThrow()

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

I went back and forth between abandoning AI tools and using AI tools, especially for Vitest, this was because sometimes the AI would generate some code that I could not ensure that was correct, so I would had to go to Google or W3Schools to look up what the code did/was and only continued once I understood the code and tried to apply it myself to a different test file.

15. For each of the following items, how would you rate the relative contribution made by you versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	☐	☐	☐	☐	☐	☒
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	☐	☐	☐	☐	☐	☒
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	☐	☐	☐	☐	☐	☒
Text analysis: To make sense of text and generate insight as to what it means	☐	☐	☐	☐	☐	☒
Summary: To quickly understand large amount of text by extracting important information	☐	☐	☐	☐	☐	☒

Q&A + Research: To get answers from questions and find relevant information	☐	☐	☐	☐	☐	☒
Illustration/Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	☐	☐	☐	☐	☐	☒
Coding - Write: To generate code by AI for software implementation	☐	☐	☒	☐	☐	☐
Coding - Test: To generate <u>code tests</u> by AI for software implementation	☐	☐	☐	☒	☐	☐
Coding - debug: To identify issues with existing code for software implementation	☐	☐	☒	☐	☐	☐
Coding - explanation: To understand what a code snippet does for software implementation	☒	☐	☐	☐	☐	☐
Other: to help any other aspects of the submission not listed above	☐	☐	☐	☐	☐	☒

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. * 

For my rating above, I put Coding - Test as "Mostly by AI, some contribution by myself", as for the testing of this project, I had no experience or knowledge of Vitest, so at first I let AI mainly generate all the Vitest test files before trying to apply Vitest to test files by myself. As for coding - debug and coding - Write, I put "Evenly split between myself and AI" as the feature I was assigned needed the use of both API, which caused a lot of errors during integration, since I had no prior experience in using APIs, I used AI to help generate me some debug lines to help pinpoint the issue, before asking it to help me create some code that allows me fix the error if only my own attempted fixes in the code doesn't fix the error.

17. Please provide use this space to provide any other information that you'd like to disclose (optional)
