

CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: <https://parsa-rajabi.github.io/CMPT-276/#/ai-policy>

1. First Name (as appears on Canvas) * 

Tian

2. Last Name (as appears on Canvas) * 

Zheng

3. Student ID * 

301599039

4. Which assignment/lab/project submission is this AI use disclosure for? * 

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? *

Completely
AcceptableSomewhat
Acceptable

Neutral

Somewhat
UnacceptableCompletely
Unacceptable

In my personal
standard of
academic
integrity, using
AI content
generators for
this submission
is...

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

The final project's code oftentimes required a lot of obscure knowledge that was easily gained by using AI code generators. I feel that using AI content generators to explain concepts, debug code, and show steps is almost necessary with such a limited timeframe.

7. Did you use AI tools for this submission? *

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

Mostly by myself, some
contribution by AIEvenly split between
myself and AIMostly by AI, some
contribution by myselfEntirely by AI, no
contribution from
myself

This submission
is...

9. How did using AI content generators impact **your learning** for this submission? * 

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	☒	☐	☐	☐	☐

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) * 

AI greatly benefited my learning because I was able to use it to explain concepts quickly and efficiently so that I can apply them to my code. As well, it was a lifesaver for debugging large blocks of code that didn't work. AI definitely accelerated my learning in a way that no other resource could do.

11. List the name all the AI tools that you used for this submission * 

ChatGPT, Copilot.

12. How confident were you in AI's responses that you received? * 

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? * 

Along with AI, I also watched video tutorials on technologies such as HTML, CSS, and React to learn the foundations. With this base level of understanding, I could tell whether the AI was hallucinating.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.
(optional) 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Sometimes, I used w3schools to understood the parameters and output of certain functions.

15. For each of the following items, how would you rate the relative contribution made by you versus AI? * 

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	☐	☐	☐	☐	☐	☒
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	☐	☐	☐	☐	☐	☒
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	☐	☐	☐	☐	☐	☒

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Text analysis: To make sense of text and generate insight as to what it means	☐	☐	☐	☐	☐	☒
Summary: To quickly understand large amount of text by extracting important information	☐	☐	☐	☐	☐	☒
Q&A + Research: To get answers from questions and find relevant information	☐	☐	☐	☐	☐	☒
Illustration/Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	☐	☐	☐	☐	☐	☒
Coding - Write: To generate code by AI for software implementation	☐	☐	☒	☐	☐	☐
Coding - Test: To generate <u>code tests</u> by AI for software implementation	☐	☐	☐	☐	☒	☐
Coding - debug: To identify issues with existing code for software implementation	☐	☐	☐	☒	☐	☐

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Coding - explanation: To understand what a code snippet does for software implementation	☐	☐	☐	☒	☐	☐
Other: to help any other aspects of the submission not listed above	☐	☐	☐	☐	☐	☒

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. * 

AI made significant contributions to that code that I produced. The code that I wrote used the least amount of AI but was still evenly split. Debugging dysfunctional code was mostly done by AI to improve speed of development but I still always understood what the bug was after AI caught it. Testing was done entire by AI since me and my team had little experience in this domain and had little time to allocate to learning it. My knowledge of our tech stack is heavily influenced by AI

17. Please provide use this space to provide any other information that you'd like to disclose (optional) 

<https://chatgpt.com/share/689408a5-8848-8000-8481-47e86a07e29d> this is the link to one of the ChatGPT conversations that I had while coding the project. As the chat history lengthened, the chat became more laggy so I had to open up many more chats. This link does not fully represent the extent to which I used AI to assist my work. But it gives you an idea of how I was using AI
