In my personal standard of academic integrity, using AI content generators for this submission is...	☐	☐	☒	☐	☐

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I chose neutral because I strongly believe that most of the written work in the report should be your original work. However, given the length of the content, using AI to check for spelling or grammar errors makes the process much more efficient.

7. Did you use AI tools for this submission? *

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by you versus AI? *

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself

Using AI content generators for this submission...	☐	☐	☒	☐	☐

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) *

I chose "Had no impact on my learning" because for the report, I only used it to check for spelling errors and grammar improvements. Although I do always reread my work, it provides another check on top of it in case I miss anything but doesn't really aid in learning new things.

11. List the name all the AI tools that you used for this submission *

- ChatGPT
- Google Gemini

12. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☐ Somewhat confident
- ☐ Neutral
- ☒ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? *

I ensured the answer I received from the AI tool was correct by first of all asking it not to do more than simply check for spelling errors and improve the grammar without changing the tone too much. Additionally, I reread what it was outputted such that it matches what I was conveying beforehand.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.
(optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

For the writing ratings, I generally wrote everything from scratch myself and did not generate any written content using AI at the start of the report. However, toward the end, I do ask AI to help improve grammar and check for spelling mistakes without changing the tone. If I don't understand a question that involves a process, I may ask it to give me an example through a diagram. In some cases, such as documentation or assignment requirements, the wording can be a little confusing, so I use AI to help analyze and interpret the text. So far, I haven't encountered text long enough to require constant summarization, but I occasionally ask for summaries.
